# CYBAGE
Delivering Value, Scientifically.

Implemented RPA bots to streamline and automate labor-intensive business operations with unparalleled productivity and accuracy

About the Client

✓ Is a Fortune 100 American multinational distribution company

✓ Is headquartered in Florida, USA

✓ Provides a broad range of product lines, logistics capabilities, and value-added services that enable technology manufacturers and resellers to deploy IT solutions

✓ Has been assisting its clients with premier software products and services for over 40 years

Business Needs

Automate the labor-intensive tasks of handling invoices and reconciling statements from thousands of vendors

Minimize human errors to improve results and competency
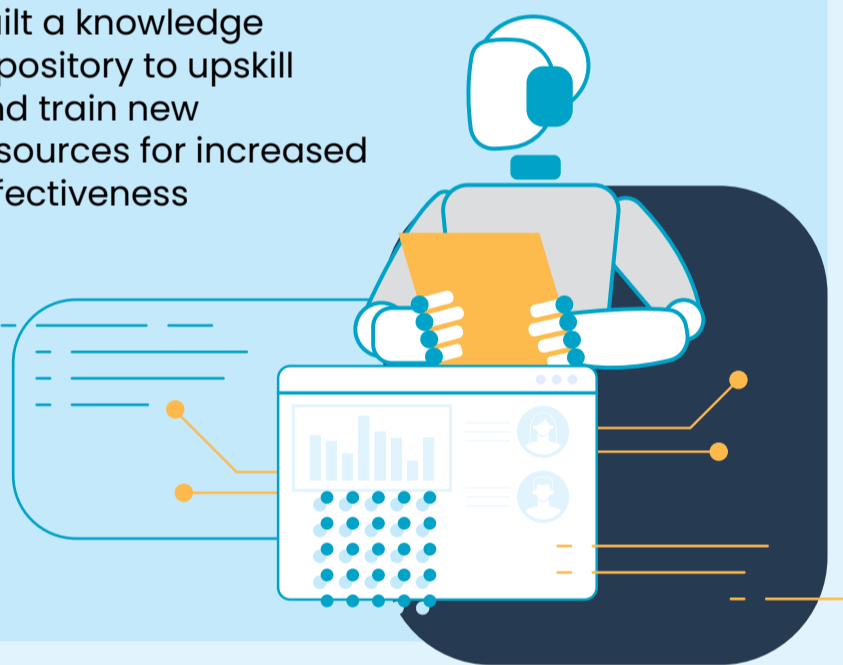

Solutions

Implemented RPA solution using UiPath to streamline processes

Created and deployed bots to consume and process a large number of statements from multiple vendors

Recognized the missing invoices and sent emails seeking the retrieval of additional data

Created and implemented a bot to automate the processes and increase scalability and accuracy

Built a knowledge repository to upskill and train new resources for increased effectiveness

Technology Stack

SAP   UiPath   tableau   Microsoft Visual Basic

Azure DevOps   Microsoft Teams   Microsoft Visual Basic for Applications   Office

Business Impact

Reduced the data fetching and processing time by around **80%**

Optimized the system to handle end-to-end operations for more than **8,000** vendors within **3** minutes per cycle

Ensured **quick reconciliation** for discounts within SAP for all the vendors

Streamlined the invoice identification process for discounted payments and reminders for **missing invoices**

Reduced the operation time significantly from multiple days to a few minutes

Eliminated manual errors by over **90%** and increased the accuracy of the calculations and operations
